However, India's exports of merchandise goods for the year 2002-03 has been valued at US$ 51.7 billion implying a growth rate of 18.05% thereby surpassing the target of 12% and the new Exim Policy has many policies to increase both merchandise and services exports. (e) Export promotion being a constant endeavour, a Medium Term Export Strategy which is co-terminus with the 10th Plan period (2002—07) was announced in January, 2002 with the objective of enhancing India's exports. In line with this strategy, a number of programmes/schemes have been launched which include schemes like Assistance to States for Developing Export Infrastructure (ASIDE), establishing Agri Export Zones, Market Access Initiative, strengthening "Focus LAC" programme, introducing "Focus Africa" programme, etc. In the Exim Policy 2003-04, besides, the focus on Service exports, policies have been devised to strengthen Special Economic Zones (SEZs), 100% Export Oriented Units (EOUs), etc. A new programme called "Focus CIS' has been introduced.
